Solid Oak MOULDINGS

*SOLID OAK MOULDINGS
FOR DECORATIVE FINISHES
IN ANY ROOM*

Enjoy the warmth and rich appeal of natural wood.

Each piece of House of Fara moulding is cut from a single length of quality American oak – not created from smaller pieces glued together – giving you solid wood moulding that can be stained or varnished to bring out the beautiful highlights of the natural wood.

From the ceiling to the floor, this elegant room was created using House of Fara solid oak mouldings. For a complete listing of mouldings available and decorative ideas, contact House of Fara or pick up a full-line catalog.

Casing

Casings are decorative mouldings used to hide gaps between jambs and walls around doorways and windows. Also a great moulding for use as a chair rail.

9553 1/2" x 2-1/4" x 7' Oak Modern Casing

9554 1/2" x 2-1/4" x 7' Oak Colonial Casing

9560 5/8" x 2-1/4" x 7' Oak Colonial Casing

Base Moulding

Base moulding is used as a decorative border where the wall meets the floor. Base moulding is an excellent way to protect walls during cleaning of floors.

9564 3/8" x 2-3/4" x 8' Oak Colonial Base

9562 1/2" x 3-1/4" x 8' Oak Colonial Base

Crown Moulding

Crown moulding is used where the walls meet the ceiling, creating a decorative cornice that adds dimension and character to the room. Crown is the most visible moulding and can be used to build interesting shelves and fireplace mantles.

9555 3/4" x 1-3/4" x 8' Oak Crown

9577 3/4" x 3-1/4" x 8' Oak Crown

Chair Rail

Chair rail is used as a decorative border 32 inches off the floor. Chair Rail protects the walls from chairs. This moulding can also be used as casing, base, wallpaper border or panel moulding.

9000 3/4" x 2-5/8" x 8' Oak Chair Rail
